ADDENDUM #1

Issued December 17, 2020

Addendum #1

RFI #2021-01

MICROMOBILITY EQUIPMENT, OPERATIONS AND SERVICES

Addenda #1 is issued to: respond to vendor questions

- 1) If an operator chooses not to respond to the RFI at this time, would that disqualify them from potentially providing a response to a competitive process, if and when that mechanism is established?

No. A reply to the RFI is NOT required to be considered in a competitive RFP process.

- 2) Is RMRTD only entertaining responses that are inclusive of bikes and scooters? Or would it be open to other forms of micromobility offerings or even one form, particularly scooters?

RMRTD is open to responses on other micromobility options and from vendors offering one form of micromobility. Respondents are encouraged to include considerations related to participating on a team of operators, potentially under one prime contractor, under questions 1 and 2.
