Addendum #2

RFP #2023-04

Contracted Bus Services

Addenda #2 is issued to respond to submitted vendor questions.

1. Some of the routes listed in the RFP do not match the current service. Will the service operate as it does today? Or based on what is in the RFP? **The routes will match what is in service today, we still reserve the right to make changes due to ADA accessibility and/or Title VI requirements.**
2. The holiday schedule in the RFP doesn't match the current service. The current service doesn't operate on the following 3 holidays which are not listed in the RFP: MLK, Veteran's Day and the day after Thanksgiving? **Holiday service will be reflected on the Rio Metro Website. For the three (3) holidays mentioned, there is no service.**
3. Based on the current service, fuel is a passthrough however, this is not stated in the RFP. Will fuel continue to be a passthrough? **Yes, fuel will still be a passthrough.**
